

Nick Vaccaro

Full-Stack Developer & Project Manager

(724) 518-3212 | njvaccaro0@gmail.com | nickvaccaro.com | github.com/NickJVaccaro

- **Full-Stack Developer with 7 years of experience** writing back-end, front-end, and tutorials while managing code reviews, bug reports, and production deployments
- Led a team of 10 devs as Scrum Master to ensure functionality was delivered on-time
- Co-founded game company and released 4 games on 3 different platforms (PC/Mac, iOS, Android)

Experience

Software Developer / Project Manager | *Privakey*

1/2016 - 7/2018

- Architected, implemented, and publicly documented an OpenID auth server with secure API routes using Test-Driven Development with .NET (C#), MySQL, and Postman
- Built a fully responsive user-facing portal to interface with auth server in AngularJS
- Streamlined and documented AWS deployment process alongside Chief Architect
- Created front- and back-end samples as learning tools in .NET, NodeJS, and PHP
- Led daily Stand-Up and bi-weekly Sprint Planning meetings as Scrum Master for team of 7-10 devs
- Hired and mentored software development interns for 3-6 months at a time

Software Developer | *Probaris Technologies*

9/2012 - 1/2016

- Developed web applications to manage identity credentials with ASP.NET (C#)
- Integrated software with physical fingerprint scanners in .NET
- Created and modified web services in .NET and Java
- Maintained Windows and Ubuntu Servers housing over 20 VMs for testing and database hosting
- Configured and modified an array of Oracle and MySQL databases

Programmer / Producer / Co-Founder | *Synersteel Studio*

8/2015 - Present

- Released 4 video games to market, working with a different client for each game
- Spearhead game launches and patches on 3 storefronts: iTunes, Google Play, & Steam
- Optimize games to run smoothly across all platforms: PC, Mac, iOS, and Android
- Initiate pre-production using GDDs and ensure on-time delivery with Asana & Slack
